EXPERIENCE

Spade Labs

Jul. 2024 – Sept. 2024

Full Stack Engineer Intern

Brooklyn, NY

- Trained and optimized large language models (LLMs), enhancing performance and accuracy on sentiment analysis
- Set up and managed a backend with Django REST framework, including integration with AWS PostgreSQL RDS for scalable database management.
- Utilized Celery to implement and manage asynchronous tasks for web scrapers, ensuring efficient and reliable data retrieval processes

MOFA Government Agency

Jun. 2023 – Aug. 2023

IT Intern

Ulaanbaatar, Mongolia

- Contributed to maintaining a web application that scaled to a large base of users, regularly updating and reviewing the internal website contents.
- Provided technical support to over 20 staff members, resolving hardware and software issues and improving response time.
- Configured and monitored network devices, supporting secure data transmission and enhancing system reliability.

Violet Ventures

Feb. 2023 – Apr. 2023

Web Developer

Abu Dhabi, UAE

- Built and optimized a full-stack web application in collaboration with the Violet Ventures tech team, streamlining internal workflows and enhancing user experience.
- Implemented responsive UI components using React and integrated backend APIs to support real-time data interactions.
- Wrote technical documentation and onboarding guides for future developers, increasing team efficiency and reducing ramp-up time.

PROJECTS

Weather Beats - Music Discovery Based on Weather

Nov. 2023 – Dec. 2023

Developer

Brooklyn, NY

- Developed a web-app where users input a city, triggering a pipeline where the server fetches real-time weather via OpenWeatherMap Api and curates a Spotify list tailored to the conditions.
- Enhanced efficiency by directly accessing the Spotify API playlist retrieval, eliminating database queries for Spotify data.
- Leveraged ChatGPT API and Google Maps API to enrich user interactions and trained ML model on weather and song data

Techie Job Portal

Jun. 2023 – Aug. 2023

Lead Developer

Ulaanbaatar, Mongolia

- Designed and developed a full-fledged job portal website using MERN stack.
- Created a dynamic user interface with features like applied jobs, job postings, and classifications.
- Integrated secure payment gateways, such as Stripe, to facilitate seamless online transactions.

EDUCATION

New York University Abu Dhabi (GPA: 3.7/4.0)

B.S., Computer Science

Aug. 2021 – Jun. 2025

Abu Dhabi, UAE

NYU Rome Academic center

4 credits

Jan. 2025 – Feb. 2025

Rome, Italy

NYU London Academic center

4 credits

May. 2024 – Jun. 2024

London, United Kingdom

New York University

16 credits

Sep. 2023 – Dec. 2023

New York, USA

Orchlon International School

High School Diploma

Sep. 2009 – Jun. 2021

Ulaanbaatar, Mongolia

CLASSES

Courses: Software Engineering, Algorithms, Data Structures, Machine Learning, Probability & Statistics

SKILLS

Skills: Python, JavaScript, Typescript, C++, C, HTML/CSS, Django, NodeJS, ExpressJS, React, TailwindCSS, jQuery, Unix, Git, Github, SQL (PostgreSQL, MySQL), NoSQL (MongoDB), AWS, Docker

ACHIEVEMENTS

- Full-Ride Scholarship to New York University Abu Dhabi, covering tuition, fees, and living expenses based on academic excellence and leadership potential.
- 13th Annual International NYUAD Hackathon for Social Good in the Arab World Quantum Computing, AI, and the UN Sustainable Development Goals - 2nd place
- The UAE University Games - Men's Volleyball Western Conference - 2nd place
- The UAE Abu Dhabi Intercollegiate Sports League (ADISL) - 2nd place

CERTIFICATES

- The QWorld Bronze-Qiskit QC Certification Course 2025
- The QWorld Nickel-Qiskit QC Certification Course 2025

VOLUNTEER

- NYUAD Hackathon for Social Good in the Arab World 2024 - Staff/Volunteer
- China-Gulf Forum 2024 - Volunteer
- Orchlon College Application Accelerator Camp 2022 - Assistant Instructor
